

CB-service24

Your partner in transportation

Our strength are years of experience and the clear dedication, focussing on your special requirements and individual requests.

Around the clock: You can reach us 24 hours every day for each segment.

Our core services:

- Transport & Logistics of temperature-critical pharmaceuticals
- Transport & Logistics of temperature-critical airfreight (Im- / Export)
- Transport & Logistics of chilled and heated Airfreight-Containers (RKN/RAP)
- „Door to Door“ all over Europe in 24 to 48 hours
- NEW: Transports of temperature- and time-critical Dangerous-Goods-Shipments
- Transport & Logistics within Clinical Trials

Our Equipment – State of the Art

Our TCVs (Temperature Controlled Vehicles) are equipped with modern ThermoKing and Carrier aggregates for all temperature ranges.

The dataloggers are annually calibrated and the entire cooling equipment is maintained by specialists with manufacturer certificates.

Regular scheduled maintenance, cleansing and disinfection of our vehicles are constantly available.

Quality is our main aim

To ensure our high level of service we constantly monitor and improve our quality standards.

Your benefits:

- Latest technical solutions for online temperature monitoring
- Constant tracking availability of your goods
- Documentation and archiving of all temperature data up to 15 years
- Best quality and years of cooperation with pharmaceutical and chemical companies
- Our employees are trained for Dangerous Goods, Airfreight Security and load security regularly
- Regular maintenance of all CB-Service24 TCVs and aggregates
- Annual recalibration of all datalogging equipment

Security is our topmost issue

All CB-Service 24 driving personell is verified according to §7 Luftsicherheitsgesetz (Air Security Regulations) and are certified as per IATA CAT.7/8. The stowage is immediately closed and sealed after loading process and therefore safe against third party access. Additionally we offer GPS-Monitoring and double-staffed cabins.

We understand your need for safety and we value it with our services.
